# Chairman's Statement

Dear Shareholders,

On behalf of the Board of Directors, it is my pleasure to present the annual report and audited financial statements of JCY International Berhad ("JCY International") for the financial year ("FY") ended 30 September 2015.

## FINANCIAL PERFORMANCE

For the financial year ended 30 September 2015, your company posted its best result since financial year 2012 – a net profit of RM209.5 million, an increase of over 90 percent compared to the previous year. Net revenue increased by 4 percent, despite a reduction in shipments of 8.5 percent. The improved results are attributable to the stronger United States Dollar relative to the Malaysian Ringgit during the period under review, together with continuing impact of cost rationalisation programmes undertaken by the company.

The financial position of your company remains strong, with total net assets of RM1.3 billion, or 63.6 sen per share, and net gearing of under 6 percent.

Dividends for the year amounted to 6.75 sen per share, totalling RM138.4 million, or 66 percent of net profit.

## REVIEW OF OPERATIONS AND DEVELOPMENT

Operations at all our facilities in Malaysia, Thailand, and China proceeded smoothly during the year under review. The new Goods and Services Tax regime was also successfully implemented with no material impact on the profitability and cash flow of the company.

During the year under review, we maintained our focus on efficiency, quality, and productivity initiatives, and these continued to yield positive results. In addition to numerous technology and process improvements, we achieved a reduction in total headcount of around 17 percent to 16,500 in FY 2015.

Capital expenditure for the year increased by 71 percent to RM65.5 million, for necessary upgrades and replacements to existing machines and facilities. Much of the expenditure during the year has been directed towards R&D and automation programmes to improve production efficiency and reduce labour dependency.

## MARKET ENVIRONMENT

The principal challenges to the hard disk drive (HDD) market continue to be weakness in demand due to uncertainties in the global economy, and competition from alternative storage technology options, particularly from solid-state drives (SSDs). Nevertheless the hard disk drive is still the most cost-effective storage medium and maintains its position as the dominant storage technology, although for the reasons enumerated above, total global demand remained largely flat during the year under review.

The consolidation of the HDD manufacturing entities reached a significant milestone during 2015 with the final approvals forthcoming from Chinese regulators for the integration of the operations of Western Digital (WD) and the former Hitachi Global Storage Technologies (now a subsidiary of WD known as HGST). Significant corporate developments during the year also included the acquisition by Unisplendour (a unit of the Tsinghua Unigroup) of a 15 percent stake in WD, and the acquisition by WD of SanDisk, a major SSD producer.

Among technology developments during the year, the launch by HGST of a third-generation 10 terabytes helium-based standard nearline design employing shingled magnetic recording (SMR) technology, continued the trend of reducing cost-per-gigabyte and specific power consumption. Other manufacturers are expected to follow suit in the near future.

## OUTLOOK & STRATEGIES

We expect the HDD market to continue to be challenging for suppliers such as JCY. Increasing levels of technology sophistication bring increased demands for precision and quality for component-makers.

Our multi-product strategy enables us to offer a broad range of products with high levels of quality, consistency and reliability. In order to maintain and enhance our market position, the company will continue to work closely with HDD manufacturers to ensure that our product offerings fully meet stringent technological specifications, while maintaining price-competitiveness.

## CORPORATE GOVERNANCE AND SOCIAL RESPONSIBILITY

A Statement on Corporate Governance and Corporate Social Responsibility reports is included in this Annual report.

This Statement reflects the high levels of commitment of your Board towards our corporate responsibilities.

## CHANGES IN THE BOARD

There have been no changes in the Board during the review period.

## ACKNOWLEDGEMENTS

Our improved performance has in no small measure been due to the hard work and dedication shown by all our staff, and your Board would like to record its appreciation for their contributions throughout the year.

Your Board also expresses its appreciation and gratitude to our customers, suppliers, business associates, and members of the banking and investment community for their continued support and confidence in the company.

# Corporate Social Responsibility Report

## CORE VALUE

***“to promote a joyful, harmonious, safe and sustainable community, environment, workplace and marketplace through the encouragement of volunteerism of contribution from all levels within the Organisation”***

## SUSTAINABILITY POLICY

The Group believes that an effective Corporate Social Responsibility (“CSR”) Framework would deliver greater value to its businesses and, in turn, to its shareholders, by enhancing reputation and business trust, relationship with regulators, staff motivation and attraction to talent, customer preference and loyalty, the goodwill of local communities and long term shareholder value.

We strive to promote the CSR values through the encouragement of volunteerism of contribution and participation in CSR activities from thousands of staff across the regions within our Group. We aim to build the value of sustainability practices into the working culture along with our staff.

Several CSR committees at various branches and subsidiaries within the Group are established to assist the Group in planning and organising events and activities that enable the Group to share its results with the society – to be driven by the motto – “from the society, for the society”.

The Management of the Group is committed to support and promote CSR values through a systematic resources allocation mechanism for funding and promoting CSR activities.

## COMMUNITY

We emphasise on communities who need support to sustain their living. Attention is given particularly to help those beneficiaries of charitable nature (e.g. orphans, the elderly, handicapped, poor, sick, disaster victims or those deprived of education).

Our CSR committees at various branches and subsidiaries have also made regular visits and contributions to charitable houses that shelter the unfortunate and had taken part in blood donation drives. We also promote volunteerism through encouraging our employees to participate in volunteer programmes on individual capacity. During the financial year ended 30 September 2015, we visited and made contribution to Eden Handicap Service Centre, a charitable non-profit Christian-run organisation set up in 1991.

As part of our commitment, we are constantly working closely with the Universiti of Teknologi Malaysia (UTM) to provide students with a practical real world working experience through conducting researches and training, with the participation of our senior employees. This project aims to support the students’ long-term employability with our Company. As science, technology and engineering education are imperative for the Group’s business, we believe that this collaboration with a reputable tertiary education institute will be mutually useful with the Group benefiting from the ideas and inputs as well as the results of the researches conducted by the students.

## ENVIRONMENT

At the Group’s various plants, we ensure strict compliance with the environmental laws governing plant operations and maintenance in areas relating to environmental standards, emission standards, noise level management and treatment of plant effluents and wastewater. As part of our CSR agenda, we have measures in place to minimise the adverse impact of pollution on the environment and to achieve continuous improvement of our plants’ and factories’ environmental performance.

The Group has an environmental management system to measure its environmental performance through periodic monitoring of the emission and discharge of pollutants. In addition, waste and chemical management systems are put in place to ensure that the environment system is being protected. We treat most of the pollutants on-site with our wastewater treatment plant and air purification and filter facilities, and we send other controlled waste substances (such as waste oil, spent solvent and metal hydroxide sludge) to government-licensed waste disposal units or specialist contractors. The Group is also subject to regular reviews by the Department of Environment on its wastewater discharge and air emissions. In line with this, our manufacturing factories are certified with the international environmental management systems standard, ISO 14001.

Reducing, reusing and recycling of office stationery and paper, and switching off the lights and air conditioners when they are not in use are among some of the conservation measures taken by the Group.

The Group will continue to explore the areas where it can contribute to the environment, which is to be driven by the CSR Committees.

## WORKPLACE

No matter how good a business plan and strategy, it is the people who make it work. Our employees are our greatest assets. We believe in supporting local employment, therefore we provide equal opportunities to all existing and potential employees without discrimination on race, religion or gender and we respect the basic rights of individual employees.

In retaining and nurturing the best talents, we continually provide our employees with education and training. Our training programmes relate to leadership skills, as well as technical and behavioral competencies. Currently, one of our focuses is on the Employee Training and Development Programme which is achieved through internal and external trainings aimed at equipping our employees with skills and knowledge that will facilitate them in carrying out their duties at work.

We strongly believe that human capital is the most important value to an organisation. We place great importance in the welfare of our employees. On top of the mandatory requirement of the social security scheme or workman compensation contribution, the Group also provides insurance coverage to the Management Staff and subsidises coverage for the rest of the workers.

We place equal importance on the safe and healthy working condition for our employees. The Group adopts several policies to safeguard employees in all of its business operations, examples of which are Fire Safety Policy, Smoking Policy and First Aid Policy. A Health and Safety Team has been established and is tasked to support these measures. The team members receive training from various bodies such as the National Institute of Occupational Health & Safety and the Malaysian Red Crescent. At the workplaces, we continue to ensure that equipment and building systems are functioning properly and are well maintained.

The Group's premises are also well-equipped with facilities for employees' convenience. The Company provides an in-house clinic, with full-time industrial nurses to provide medical consultation and treatment, surau facility, a 24-hour canteen, transport and hostels with free utilities charges for operators.

Workplace safety is also part of our top priority. The Group provides regular safety trainings including emergency evacuation drills, firefighting training and first-aid training to the workers in case of emergency events.

## MARKETPLACE

Our CSR covers practices or policies that safeguard the interests of our business associates in the marketplace. These partners include our suppliers and customers in the supply-chain, shareholders and investors in the capital market and the Government.

We acknowledge that our business associates in the marketplace entrust us to deliver results and bring prosperity to the marketplace as a whole. We also reckon that we, as one of the members in the marketplace ecosystem, are responsible to uphold the interests of the stakeholders in the marketplace.

The following showcase some of the practices that we exercise in safeguarding the interests of our business associates in the marketplace:-

1. An established Financial Management Discipline intended to drive excellence in financial management with the objective of preserving and enhancing the quality of business as a going concern.
2. An established Enterprise Risk Management structure to ensure that a systematic process and delegation of responsibility is clearly set out to guide Management.
3. Upholding transparency and integrity in its supply chain management. In an effort to strengthen the overall responsiveness and wellness of the supply-chain, the Group has also collaborated with its major customers to share and exchange knowledge with the objective of enhancing the management system, process design, internal control and technical know-how.
4. Complying with International Organisation for Standardisation (ISO) standards and Electronics Industry Code of Conduct (EICC), where a strict code of business conduct based on industry best practices and ethics were formulated, which the Group abides by in all types of business transactions and operation practices.
5. Enhancing skills and development of employees to achieve professionalism in good business conduct. Public communications, like financial reports, contain disclosures that are fair, accurate, timely and understandable.
6. Applying the principles in compliance with the recommendations as set out in the Malaysian Code on Corporate Governance 2012 and strict

adherence to the Main Market Listing Requirements of the Bursa Malaysia Securities Berhad.

7. In selecting its directors, the Group seeks individuals who are of high integrity, value-adding orientated and have a genuine interest in their respective roles in the Group. They are tasked with the responsibility of exercising their professional judgments to act in what they reasonably believe to be in the best interest of the Group.

A Business Continuity Plan has been established to prepare the Group in the event of natural and human disasters such as fire, floods, utility disconnections, medical epidemic, supply chain disconnection, information technology disaster, financial difficulties and human resource shortage. The plan targets specifically on the reaction in the soonest possible time for reducing the impacts of the disasters and restoration of operations to the widest extent possible in a minimum time frame.

We also demonstrate our commitment to safeguard the interests of our business associates in the marketplace by establishing a strong corporate governance system. Details of our corporate governance practices are elaborated in the Statement on Corporate Governance from page 15 to page 23.

# Statement on Corporate Governance

The Board of Directors (“Board”) of JCY International Berhad recognises the importance of practicing high standards of corporate governance throughout the Group as a fundamental part of discharging its responsibilities to protect and enhance shareholders’ value and the financial performance of the Group.

The following statements outline the main corporate governance practices of the Group having regard to the Recommendations stated under each Principle in the Malaysian Code on Corporate Governance 2012 (“the Code”).

## ROLES AND RESPONSIBILITIES

The Board has the overall responsibility for Corporate Governance, establishing goals, strategies and direction, reviewing the Group’s performance and critical business issues and ultimately the enhancement of long term shareholders’ value.

### a) Board Charter

The Board has adopted a Board Charter which sets out its primary responsibilities as follows:-

- Reviewing and adopting a strategic plan for the Company on an annual basis before the commencement of a new financial year;
- Overseeing the conduct of the Company’s business to evaluate whether the business is being properly managed through reports and presentations by the Management to the Board every quarter;
- Identifying principal risks of the business and ensuring the implementation of appropriate systems to manage these risks;
- Reviewing the adequacy and integrity of the Company’s internal control and management information systems, including systems for compliance with applicable laws, regulations, rules, directives and guidelines;
- Succession planning, including appointing, training, compensating and, where appropriate, replacing key management and updating the succession plan as and when necessary; and
- Developing and implementing an investor relations programme and shareholder communications policy for the Company.

The Board Charter defines the duties and responsibilities for each of the key roles in the Company, including Chairman, CEO, Executive Directors, Senior Independent Non-Executive Director (“SINED”), Independent Directors, Board Committees and Company Secretaries.

The Chairman undertakes a leadership role in the conduct of the Board and its relationship with shareholders and other stakeholders. The Chairman is primarily responsible for leading the Board to effectively discharge its fiduciary duties and responsibilities and ensuring the adequacy and integrity of the governance process

The Board Charter also clearly defines the functions that are reserved for the Board and those delegated to the management of the Group. In general, all material decisions that would impact the strategy, direction, values and financial standing of the Group, or decisions that may potentially create material conflict of interest with related parties, decisions that may be prone to fraud risk, and decisions in high value transactions are reserved exclusively for the Board. None of the members of the Board has unfettered powers of decision.

The Board, during its deliberations, has clearly delivered its expectations on the corporate objectives, which include performance targets and long-term goals of the business, to be collectively met by the Executive Directors, whilst the Executive Directors and senior management personnel report to the Board on quarterly basis, the operational reviews of their respective business divisions and functions. The processes and procedures for convening Board meetings are governed by provisions in the Board Charter and the Company’s Memorandum and Articles of Association.

### b) Supply of Information and Advice

The Board Charter has ensured that all members of the Board have equal and unrestricted right to access information of the Group. Prior to each Board meeting, members of the Board are provided with an agenda and a set of board papers containing reports and other relevant information detailing various aspects of the Group’s operations and performance and proposal papers in sufficient time to enable them to make informed decisions. During the meeting, the Management provides further detailed information and clarification on issues raised by members of the Board.

The Directors in discharging their duties and responsibilities are entitled to have full and unrestricted access to all information and to management on matters relating to the Group’s operations. The Directors may obtain independent professional advice in the furtherance of their duties, at the Company’s expense if circumstances necessitate it.

### b) Supply of Information and Advice cont'd

The Board is assisted by experienced and competent company secretaries. The Board receives regular constructive advice and notices from the Company Secretaries on compliance with applicable laws, regulations and corporate governance matters. The Company Secretaries are responsible to ensure that Board policies and procedures are followed, and the applicable statutory and regulatory requirements are observed.

### c) Code of Conduct

A Code of Conduct that sets out the ethical expectations of the Board on its members has been adopted by the Board. The Group also takes a keen interest on promoting sustainability for the wellbeing of the community and the environment. A Report on Sustainability and Social Responsibilities is included in pages 12 to 14 of this Annual Report as well as on the Company's Website at <http://www.jcyinternational.com> ("Website").

### d) Whistle-blowing Policy

The Board has adopted a whistleblowing policy which encourages any employee, shareholders, stakeholders or the general public to report any irregularity or matters of suspect through any of the following channels:-

Name	Position	Contacts
Dr. Rozali Bin Mohamed Ali	Chairman	Email: <a href="mailto:chairman@jcyinternational.com">chairman@jcyinternational.com</a>

The Board Charter and Code of Conduct, amongst other corporate policies, which are subject to review by the Board periodically, can be accessed via the Company's Website at <http://www.jcyinternational.com>.

The Board Charter and Code of Conduct was last reviewed by the Board on 21 January 2016.

## BOARD COMPOSITION

The Board currently has seven (7) members of whom four (4) are Non-Independent Executive Directors and three (3) are Independent Non-Executive Directors. The composition of the Board is in compliance with the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Main LR of Bursa Securities") which requires one-third of the Directors to be Independent Non-Executive Directors.

## BOARD COMMITTEES

To assist the Board to effectively discharge its role and functions, the Board delegates certain of its role and functions to four (4) Board Committees which operate within clearly defined terms of reference.

The Chairman of the respective Committees will brief the Board on the matters discussed at the Committee meetings and minutes of these meetings are circulated to the Board. The Board Committees are:-

- Audit Committee;
- Nomination Committee;
- Remuneration Committee; and
- Enterprise Risk Management Committee.

### a) Audit Committee

The Audit Committee's composition, duties and responsibilities, terms of reference and activities are set out on pages 24 to 27 of this Annual Report.

Dr. Rozali Bin Mohamed Ali	Member	Independent Non-Executive Director

The primary duties and functions of the Nomination Committee are summarised as follows:-

- i. Recommending candidates for appointment to the Board, its Committees, and key management positions;
- ii. Establishing the performance criteria to evaluate the performance of the Board and its Committees and each member of the Board and reviewing their respective performance;
- iii. Reviewing the outcomes of the annual self and peer assessment of the members of the Board, evaluating the performance of the members of the Board and making necessary recommendations to the Board;
- iv. Evaluating the performance of each of the committees established by the Board and the Board as a whole and making necessary recommendations to the Board;
- v. Formulating the nomination and selection policies for members of the Board and its Committees;
- vi. Recommending to the Board the optimum size of the Board, and formalising a transparent procedure for proposing new nominees to the Board and its Committees;
- vii. Assisting the Board in reviewing on an annual basis the required mix of skills and experience of Non-Executive Directors;
- viii. Developing the criteria to assess independence and to assess on an annual basis, the independence of the Independent Non-Executive Directors and recommend the same to the Board;
- ix. Establishing time commitment expectations for the members of the Board and establish a policy formalizing its approach to boardroom diversity; and
- x. Reviewing training programmes for the Board and facilitate board induction and training programmes.

During the financial year under review, the Nomination Committee had one (1) meeting.

The Chairman of the Nomination Committee, Mr. Chan Boon Hui has been designated as the SINED of the Board on 23 November 2015. The Board believes he is able to lead and ensure effective functioning of the Nomination Committee and contribute towards ensuring that the Board composition meets the needs of the Company.

### c) Remuneration Committee

Established on 13 November 2009, the Remuneration Committee comprises three (3) Independent Non-Executive Directors and one (1) Non-Independent Executive Director as follows:-

Name	Position	Directorship
Dr. Rozali Bin Mohamed Ali	Chairman	Independent Non-Executive Director
Mr. Chan Boon Hui	Member	SINED
Mr. Chang Wei Ming	Member	Independent Non-Executive Director
Dato' Wong King Kheng	Member	Non-Independent Executive Director

### d) Enterprise Risk Management Committee

Established on 21 February 2013, the Enterprise Risk Management Committee comprises four (4) Non-Independent Executive Directors and two (2) executive staff as follows:-

Name	Position	Directorship / Appointment
Dato' Wong King Kheng	Chairman	Non-Independent Executive Director
Mr. Goh Chye Kang	Member	Non-Independent Executive Director
Dato' Tan Shih Leng	Member	Non-Independent Executive Director
Mr. Lim Cheng Tee Peter	Member	Non-Independent Executive Director
Mr. Lim Su Kiat	Member	Group Financial Controller

The Enterprise Risk Management Committee is primarily responsible to assist the Board in establishing, maintaining, implementing and reviewing a strategic approach to risk assessment and management for the Group.

During the financial year under review, the Enterprise Risk Management Committee had one (1) meeting.

## BOARD SELECTION, BALANCE AND REMUNERATION

The Board acknowledges that the strength of the Board lies in the composition of its members, who have a wide range of expertise, extensive experience and diverse background in business, finance and technical knowledge.

### a) Appointments to the Board

The Nomination Committee of the Board is tasked to oversee the selection process and assessment of directors for the Board with the objective to secure the best composition to meet the diverse objectives of the Company.

In its selection process, the Nomination Committee follows a set of criteria and expectations based upon the competencies, commitment, experience and integrity of the candidates and if deemed fit, the Nomination Committee would recommend the appointment of the candidate to the Board for consideration.

The Board acknowledges the recommendation of the Code on gender diversity and expresses a strong preference for suitable candidates of the female gender where and when such candidates become available.

All newly appointed directors will go through a board induction, followed by the necessary training programmes, including the Mandatory Accreditation Programme mandated by the Main LR of Bursa Securities.

### b) Annual Assessment

Annual self and peer review assessments for all the Board members, effectiveness of the Board as a whole and the Committees of the Board are conducted and reviewed by the Nomination Committee to ensure the continuous suitability of the directors, the effectiveness of the Board and its Committees. The individual Directors are assessed on their contribution to interaction, quality of input, and understanding of both their and Board Chairman's role. The effectiveness of the Board is assessed in the areas of Board Structure, Board Operations, Board Roles and Responsibilities and Board Chairman's Roles and Responsibilities. The effectiveness of the Board Committees is assessed in terms of composition, discharge of Committee Chairman's roles and responsibilities and quality of the Committees' communications to the Board. The outcomes of the annual assessments are deliberated during the Nomination Committee meetings and conclusions and recommendations are delivered to the Board.

### c) Directors' Remuneration

The Group's Remuneration Policy is guided by the need to "attract and retain talent" and at the same time, aligns remuneration and reward to achieving the long term objectives of the Group. The compensation of Non-Executive Directors, including the Non-Executive Chairman, should be a matter for the Board as a whole. Directors' fees payable to Non-Executive Directors are subject to shareholders' approval at the Annual General Meeting ("AGM").

### c) Directors' Remuneration cont'd

No director is involved in deciding his own remuneration. A summary of the Directors' aggregated remuneration for the financial year ended 30 September 2015 is as follows:-

	Salary and EPF RM'000	Other emoluments RM'000	Fee RM'000	Total RM'000
Executive Directors	4,598	-	468	5,066
Non-Executive Directors	-	300	300	600
<b>Total</b>	<b>4,598</b>	<b>300</b>	<b>768</b>	<b>5,666</b>

The numbers of Directors whose remuneration during the financial year ended 30 September 2015 falls within the following bands are as follows:-

	Group	
	Executive	Non-Executive
RM50,001 – RM100,000	-	2
RM350,001 – RM400,000	-	1
RM950,001 – RM1,000,000	1	-
RM1,000,001 – RM1,050,000	1	-
RM1,250,001 – RM1,300,000	1	-
RM1,800,001 – RM1,850,000	1	-

The detailed remuneration of each Director is not disclosed as the information is sensitive and confidential.

## INDEPENDENCE

The Board is of the view that the appointment of three (3) knowledgeable and professional Independent Non-Executive Directors has enabled a check-and-balance system on the functioning of the Group. The primary role of the Independent Non-Executive Directors is to enquire into material policies, strategies, directions or financial actions taken or omitted by the Management. We believe that the current composition of the Board has facilitated a balanced opinion in order to fairly reflect, through board representation, the interests of the minority shareholders of the Company.

The Board is led by an Independent Non-Executive Chairman whose role and responsibilities is clearly divided from those reserved for the Executive Directors as stated in the Board Charter. The Independent Non-Executive Chairman and Directors are professionals of high calibre and credibility who play a pivotal role in corporate accountability by contributing their knowledge, advice and experience towards making independent judgement on issues of strategies, performance, resources and standards of conduct.

The Board has identified Mr. Chan Boon Hui to be the SINED to whom concerns may be conveyed to by shareholders and the general public.

The Board has initiated an annual assessment on the independence of each of the independent directors based on a set of criteria established by the Nomination Committee. The same assessment criteria would be used whenever new independent directors are appointed to the Board.

The Group adopts the recommendation in the Code that an Independent Director will hold office for a term not exceeding a total of nine (9) years unless duly approved by the shareholders at a general meeting or redesignated as a Non-Independent Director. As at end of the financial year at 30 September 2015, none of the independent directors have served in the position of independent directors for more than nine (9) years.

## COMMITMENT

The Board, from the recommendations made by the Nomination Committee, has established and communicated to the Board members that they would devote sufficient time and effort to effectively discharge their duties and responsibilities based on their designated roles in the Board.

All of the Directors would notify the Chairman of the Board before accepting any new Board appointment(s) in other companies and would provide the best estimation of time commitment in their new appointment.

## BOARD MEETINGS

A total of five (5) Board meetings were held during the financial year ended 30 September 2015. The attendance of each Director at the Board meetings held during the financial year is summarised as follows:-

Directors	No. of Meetings Attended	Percentage

Mr. Goh Chye Kang	5/5	100%
Dato' Wong King Kheng	5/5	100%
Dato' Tan Shih Leng	5/5	100%
Mr. Lim Ching Tee Peter	5/5	100%
Mr. Chang Wei Ming	5/5	100%
Mr. Chan Boon Hui	5/5	100%

All the directors have complied with the minimum 50% attendance requirement in respect of Board meetings as stipulated by the Main LR of Bursa Securities.

## DIRECTORS' CONTINUOUS DEVELOPMENT

In order to ensure the directors' continuous professional development the Board, through its Nomination Committee, has identified and enrolled relevant training needs amongst the Directors as and when required. Any Director may also request to attend additional training sessions to keep abreast of changes in the regulatory framework on their own accord.

The Directors are also updated from time to time at Board meetings by the Company Secretaries on any changes to the legal and corporate governance practices which may affect the Group and the Directors at Board meetings.

The training sessions attended by the Directors during the financial year ended 30 September 2015 are as follows:-

### Dr. Rozali Bin Mohamed Ali

## FINANCIAL INTEGRITY

### a) Financial Reporting

The Board is responsible for ensuring that the quarterly and annual audited financial statements of the Company present a fair and balanced view and assessment of the Company's financial position, performance and prospect and comply with applicable financial reporting standards. The Board aims to present a balanced, clear and meaningful assessment of the Company's financial positions and prospects in all their reports to the shareholders, investors and regulatory authorities.

The Audit Committee reviews the Company's quarterly and annual financial reports before recommending them to the Board for approval. Every quarter, the Management presents details of revenue, expenditure, market price of products and updates on competitors and other relevant information to the Audit Committee and the Board.

With assistance from the Audit Committee, the Board scrutinises the Audited Financial Statements and ensures that all quarterly and annual financial reports are prepared in accordance with the applicable approved financial reporting standards in Malaysia and the provisions of the Companies Act, 1965.

### b) Statement of Directors' Responsibility for Preparing the Financial Statements

The directors are responsible for ensuring that all the annual financial statements and interim financial statements of the Group and of the Company are drawn up in accordance with the applicable approved accounting standards issued by the Malaysian Accounting Standards Board ("MASB"), the Main LR of Bursa Securities and the provisions of the Companies Act, 1965 so as to give a true and fair view of the financial position of the Group and of the Company as at 30 September 2015 and of their financial performance and the cash flows of the Group and of the Company for the year then ended.

In preparing the financial statements, the directors consider that:

- suitable accounting policies have been adopted and applied consistently;
- reasonable and prudent judgments and estimates have been made;
- all applicable approved accounting standards issued by MASB have been adopted.

The directors are responsible for ensuring that the Group and the Company maintain proper accounting records which enable them to ensure that the financial statements comply with the provisions of the Companies Act 1965, the Main LR of Bursa Securities and all applicable approved financial reporting standards issued by MASB.

The directors are also responsible for ensuring that a proper internal control is in place to safeguard the Group's assets and to prevent and detect fraud and other irregularities.

### c) External Auditors

The Group's independent External Auditors play an important role in assuring the reliability of the Group's financial statements to the users of those financial statements.

## FINANCIAL INTEGRITY *cont'd*

### c) External Auditors *cont'd*

#### ***Relationship with External Auditors***

The role of the Audit Committee in relation to the External Auditors is described in the Audit Committee Report of this Annual Report. The Group has always maintained a transparent relationship with its External Auditors in seeking professional advice and ensuring compliance with applicable approved financial reporting standards in Malaysia.

#### ***Independence of External Auditors***

The Audit Committee has reviewed the independence of the External Auditors via, amongst others, an analysis of the non-audit services provided by the External Auditors and its affiliated parties, and the fees dependency on the services provided to the Group. The Audit Committee had also obtained a written assurance from the External Auditors confirming their independence throughout the conduct of the audit engagement in accordance with the terms of all relevant professional and regulatory requirements. Messrs. Ernst and Young have been the Company's Auditors since 2006.

The Audit Committee, after due deliberations, has recommended the reappointment of Messrs. Ernst and Young as External Auditors for the financial year ending 30 September 2016. The Board at its meeting held on 21 January 2016 approved the Audit Committee's recommendation. The reappointment of Messrs. Ernst and Young will be presented for shareholders' approval at the forthcoming Tenth Annual General Meeting

#### ***Provision of Non-Audit Services***

The Audit Committee has also established guidelines on the provision of non-audit services by the External Auditors to the Group to further enhance their independence. In general, the Audit Committee is of the view that the External Auditors should not be involved in the provision of non-audit services to the Group which are related to the enhancement of revenue generation and profitability, either directly or indirectly, that have a material influence on the reporting of profit or losses before taxation.

## RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges that the risk management system and internal audit function is an integral part of an effective system of corporate governance and hence, the Board has established an Enterprise Risk Management Committee to formulate, maintain and regularly review a sound and effective risk management approach. There is also an in-house Internal Audit Department headed by a suitably qualified Head of Internal Audit, which reports directly to the Audit Committee. The Internal Auditors periodically review the adequacy, effectiveness and integrity of the Group's internal control system, management information system, risk management and governance processes. The Internal Auditors also review and highlight to the Audit Committee, any weaknesses in control procedures and make recommendations for improvement.

A summary of Internal Auditors' activities is set out in the Statement of Risk Management and Internal Control on pages 28 to 31 of this Annual Report.

## CORPORATE DISCLOSURE POLICY

The Board observes all the requirements for the timely disclosure to the Company's shareholders and the public and would endeavour to make such disclosures whenever there is a need to ensure that the Company's shareholders and the public are kept well informed of the material developments of the Company.

Apart from the mandatory and regulatory requirements of making disclosures, the Board has adopted a Corporate Disclosure Policy to regulate the quality of the information and the manner of disclosure of information to the Company's shareholders and the public.

The Board goes through an intensive deliberation to ensure the accuracy and completeness of the information contained in public disclosures, such as the Quarterly Interim Financial Statements and Annual Audited Financial Statement, and take reasonable steps to ensure that all users of the information, whether financial or non-financial, may rely on such information to make an informed investment decision.

# Statement on Corporate Governance

## **CORPORATE DISCLOSURE POLICY** *cont'd*

On top of public disclosure via the available platform provided and mandated by Bursa Malaysia Securities Berhad, the Company also maintains its own Website to serve as an electronic communication platform between the Company and the shareholders, stakeholders and the general public. The Company may update some of the non-investment related information exclusively via its own Website, in a dedicated section called "Corporate Governance" and the information published on the Website may include, but not limited to, the Board Charter, policies, directors' profile, industry and product information, corporate activities, sustainability activities, published financial statements and annual reports.

## **SHAREHOLDERS' COMMUNICATION**

The Board values dialogue with investors and recognises the importance of being transparent and accountable to its shareholders. Effective communication with shareholders provides a better appreciation of the Company's objectives, while also making the Board aware of the expectations and concern of the shareholders.

### **a) General Meetings**

The AGM remains the principal forum for dialogue with shareholders where they may seek clarifications on the Company's business and reports. Shareholders are encouraged to meet and communicate with the Board at the AGM and to vote on all resolutions. The Board will respond to any question raised during the meeting.

Notice of the AGM, annual reports and circular are sent out with sufficient notice before the date of the meeting to enable the shareholders to have full information about the meeting to facilitate informed decision-making. The explanatory notes on the proposed resolutions under Special Business are given to help the shareholders vote on the resolutions.

The Board would consider employing electronic means for poll vote in the future general meetings for substantive resolutions. Board considers a poll vote to be necessary for a fair voting process.

### **b) Investor Relations**

Apart from communication through general meetings, the Executive Directors have also been responsive to interview invitations by journalists and analysts or dialogue sessions with institutional investors with the aim of updating the shareholders through their published reports. However, during such sessions, the Executive Directors will always ensure that no selective disclosure is made on material information which is not available to the public in accordance with the Corporate Disclosure Policy.

The Board has also established other avenues for more direct interactions between the shareholders and the Company via the appointment of an Investor Relation Officer and, within the Board, a SINED. Shareholders who would like to contact the Company may reach the persons above via email at [calvin\\_lim@jcyinternational.com](mailto:calvin_lim@jcyinternational.com) or [senior-ined@jcyinternational.com](mailto:senior-ined@jcyinternational.com) respectively.

Timely announcements are also made to the public with regard to the Company's quarterly results, corporate proposals and other required announcements to ensure effective dissemination of information relating to the Company and that accurate information are provided to the public at large.

The Committee had two (2) dialogue sessions with the External Auditors without the presence of Executive Directors and employees of the Company on 26 November 2014 and 20 May 2015.

### SUMMARY OF ACTIVITIES

During the financial year, the Committee has reviewed:-

1. The external audit plan with the External Auditors.
2. The quarterly unaudited results and the audited annual financial statements before submission to the Board for their consideration and approval for the purpose of announcement to Bursa Securities.
3. The management letter of External Auditors and management response.
4. The internal audit plan and results of the internal audit process; to ensure appropriate actions are taken on the recommendations made by the internal auditors.
5. The reports prepared by the internal auditor on the state of internal control of the Group in respect of the financial year.
6. The related party transaction(s) and those that may arise within the Group or Company.
7. The effectiveness of the External Auditors and re-appointments of the External Auditors for the ensuing year.
8. The allocation of the options being granted through the ESOS as being in compliance with the criteria stipulated in the by-laws of the ESOS of the Company.

### Internal Audit Function

The Company has an Internal Audit Department which reports directly to the Committee and assists the Committee in discharging its functions and duties. The internal audit function is independent of operational activities and has its own service charter to ensure the internal audit activities are performed with impartiality, proficiency and due professional care.

The costs incurred for the internal audit function in respect of the financial year ended 30 September 2015 amounted to approximately RM160,000/-.

# Statement on Risk Management and Internal Control

The Malaysian Code on Corporate Governance 2012 (“MCCG 2012”) requires listed companies to maintain a sound framework to manage risks and effective internal controls in order to enhance the value of shareholders’ investments and to safeguard the companies’ assets. In compliance with Paragraph 15.26(b) of the Main Market Listing Requirements of the Bursa Malaysia Securities Berhad (“Main LR of Bursa Securities”), the Board of Directors of JCY International Berhad is pleased to provide the following Statement on Risk Management and Internal Control of the Group, which has been prepared in accordance with the Statement on Risk Management & Internal Control - Guidelines for Directors of Listed Issuers.

This statement is in line with the Main LR of Bursa Securities on the Group’s compliance with the recommendations of the MCCG 2012 in relation to risk management and internal controls.

## RESPONSIBILITY OF THE BOARD

The Board affirms its overall responsibilities of good practice of corporate governance and is committed to maintaining a sound system of risk management and internal control, and for reviewing its effectiveness, adequacy and integrity. This includes the establishment of an appropriate control environment and framework, and review of the effectiveness, adequacy and integrity of the system.

Due to limitations that are inherent in any systems of risk management and internal control, the system adopted by the Group is designed to manage rather than to eliminate the risk of failure to achieve business objectives. The system of risk management and internal control can only provide reasonable but not absolute assurance against any material misstatement, fraud or loss.

There is an on-going process for identifying, evaluating and managing significant risks faced by the Group. This process, which was in place throughout the financial year, is regularly reviewed by the Board.

## RISK MANAGEMENT

An Enterprise Risk Management Committee (“ERMC”) is established to assist the Board to identify and assess the risks faced by the Group and thereafter to design, implement and monitor appropriate risk management processes and internal controls to address and mitigate such risks. The ERMC oversees the potential risks concerning the business and operations to ensure that they are effectively managed and reports its concerns to the Board and the Audit Committee.

Risk management is a continuous process of identifying, evaluating, managing and reviewing significant risks faced by the businesses in the Group.

### Risk Management Framework

The Board had identified the essence of a quality Risk Management System and had also incorporated these approaches into the adopted Risk Management Framework.

***A continuous practice of systematically evaluating and selecting cost effective approaches for minimising the effect of the threat of risk realisation.***

Risk Management shall achieve a long-term goal of risk minimisation. It is an on-going practice and shall link back to the objectives of the Company, whereby the cost of implementation of the system and measures taken for the control or mitigation of the risks shall not be higher than the anticipated benefits derived from such control and mitigation in the perspective of cost-benefit analysis.

### ***To manage rather than to eliminate risk factors in total***

The Board recognises the nature of the residual risk despite how good the Risk Management Framework is designed and how vigilant the implementation of the Risk Management has been. The ultimate target of the Risk Management is to manage the risk within a controllable and acceptable manner, not the elimination of the risk as a whole.

## **RISK MANAGEMENT** *cont'd*

### **Risk Management Framework** *cont'd*

#### ***To be embedded into the culture, processes and structures of the Company***

The Risk Management Framework is designed to be built into the culture, processes and structures of the Group. The Board has set up an Enterprise Risk Management Committee comprising all the executive directors and certain executive staff with the aim of transplanting the essence and culture of Risk Management throughout all levels of the Group.

#### ***Responsive to changes in the business environment and clearly communicated to all levels***

The Board is of the view that risk factors would evolve over time. The Enterprise Risk Management Committee would adopt a broad based approach, communicating with all levels within the Group in identifying changes in risk factors at the earliest possible time. In this way, controls and preventive actions could be adjusted to adapt to the new challenges arising from the change.

#### ***Continuous improvement***

The terms of reference of the Enterprise Risk Management Committee are subject to annual review. The Committee would actively refine and continuously seek for improvements in the existing Risk Management System.

## **CONTROL ENVIRONMENT AND KEY ELEMENTS OF INTERNAL CONTROL**

The Board is committed towards maintaining a strong control structure and environment for the proper conduct of the Group's business operations and towards achieving a sound system of internal control. The control processes in place are as follows:-

### **Organisation Structure with Defined Roles and Responsibilities**

Terms of reference for the Executive Directors are clearly defined. Job functions for the Management and employees in the Group have been streamlined to provide well defined roles and responsibilities for the enhancement of the Group's performance.

### **Authority Limits**

Delegation of authority including authorisation limits at various levels of management and those requiring the Board's approval are clearly defined to ensure accountability and responsibility.

Investments and projects are subject to formal review and authorisation procedures where the Executive Directors will review significant projects before making recommendations to the Board for consideration, and approval.

### **Formalised Strategic Planning Processes**

The Group has formulated the appropriate business plans within which the business objectives, strategies and targets are articulated. Business planning and budgeting are undertaken annually to establish plans and targets against which performance is monitored on an ongoing basis. Key business risks are identified during the business planning process and are reviewed regularly during the year.

### **Management Processes and Mechanisms**

Periodic meetings of the Board, Board Committees and Senior Management represent the main platform through which the Group's performance and conduct is assessed and monitored.

The daily operations of the business are entrusted to the respective General Managers/Operational Heads and their respective management teams.

## **CONTROL ENVIRONMENT AND KEY ELEMENTS OF INTERNAL CONTROL** *cont'd*

### **Management Processes and Mechanisms** *cont'd*

Under the purview of the General Managers/Operational Heads, the heads of departments are delegated with the responsibility of managing their respective operations. The General Managers/Operational Heads actively communicate the Board's expectations to their management teams at monthly senior management meetings as well as through attendance at various operational meetings where operational and financial risks are discussed and dealt with.

The Group's key management team carries out monthly monitoring and review of financial results including monitoring and reporting thereon, of performance against the operating plans. The key management team communicates regularly to monitor operational and financial performance as well as formulate action plans to address any areas of concern.

Through these mechanisms, the Board obtains timely and accurate information of all major control issues in relation to internal controls, regulatory compliance and risk-taking.

### **Continuous Employee Education**

All employees are encouraged to improve themselves through adequate training and continuous education. The Group has put in place a continuous training programme to motivate and improve the leadership quality of employees in the Group in order to better conduct themselves at work and in relationship with external parties, such as customers and suppliers.

### **Quality Control**

The Group emphasises continuous effort in maintaining the quality of its products. The Directors have ensured that safety and health regulations, environmental controls and all other legislations in connection with the industry have been considered and complied with.

### **Financial Performance**

The preparation of quarterly and full year results and the state of affairs, as published to shareholders, are reviewed and approved by the Board. The full year financial statements are also audited by the external auditors.

## **INDEPENDENCE OF AUDIT COMMITTEE**

The Audit Committee comprises wholly of Non-Executive Directors who each has the relevant experience and qualification to perform their duties effectively. The Audit Committee has full access to both the internal as well as External Auditors.

The Audit Committee, on behalf of the Board, considers the effectiveness of the operation of internal control procedures in the Group during the financial year. The Audit Committee reviews internal control issues identified by the internal auditors, the external auditors and the management, and evaluates the adequacy and effectiveness of the Group's risk management and internal control system. It also conducts a review of the internal audit functions with emphasis on the scope of audits, quality and independence of the IAD.

## **INTERNAL AUDIT DEPARTMENT**

The IAD is an independent and objective assurance function designed to add value to the Group.

The IAD reports directly to the Audit Committee and is independent of the activities and operations that it audits. Its primary responsibility is to undertake regular and systematic reviews of the business operations, processes and procedures as well as compliances in order to provide reasonable assurance that the Group's overall system of internal control and governance processes continues to operate adequately and effectively.

# Statement on Risk Management and Internal Control

*cont'd*

## **INTERNAL AUDIT DEPARTMENT** *cont'd*

During the year, the IAD has carried out audits on key operating units within the Group in accordance with the risk-based annual audit plan approved by the Audit Committee. Internal Audit function adopts COSO Internal Controls – Integrated Framework in providing assurance on the adequacy and effectiveness of the Group's overall system of internal control and governance. Existing controls in managing the identified risk are evaluated for its adequacy and effectiveness. Improvement measures are recommended to strengthen controls.

Internal audit reports are presented to the Audit Committee on a quarterly basis, highlighting findings, recommendations and agreed action plans to improve the system of internal controls. Follow-up reviews on significant audit issues are performed to assess the status of implementation and the results of such reviews are reported to the Audit Committee on a regular basis as well as reported their residual risks assessment after follow-up closures.

Based on the internal audit reviews conducted, none of the audit issues noted have resulted in any material control deficiencies.

## **CONCLUSION**

For the financial year under review and up to the date of approval of this Statement on Risk Management and Internal Control, the Board is satisfied with the adequacy and effectiveness of the Group's risk management and internal control system. The Board has received an assurance from the Executive Directors (collectively acting for Chief Executive Officer) and the Executive Director – Finance (equivalent to Chief Financial Officer) that the Group's risk management and internal control system, in all material aspects, is operating adequately and effectively. For the financial year under review, there were no material control failures or adverse compliance events that have directly resulted in any material loss to the Group.

The Board remains committed in ensuring that appropriate initiatives and active measures are taken to enhance the system of internal control to safeguard the shareholders' investment and the Group's assets.

This statement is made in accordance with the resolution of the Board dated 21 January 2016 and has been duly reviewed by the External Auditors pursuant to paragraph 15.23 of the Main LR of Bursa Securities.

## EXECUTIVE SHARE OPTIONS SCHEME

At an Extraordinary General Meeting held on 24 March 2011, shareholders approved the Executives' Share Option Scheme ("ESOS") for the granting of non-transferable options that are settled by physical delivery of the ordinary shares of the Company, to eligible senior executives and employees.

The Options Committee administering the ESOS comprises four directors and one senior executive, namely Dato' Wong King Kheng, Goh Chye Kang, Dato' Tan Shih Leng, Lim Ching Tee, Peter and Yong Yong Chai.

The duration of the ESOS is 3 years from the implementation date of 1 August 2011. The Options Committee has extended the duration of the ESOS for another 3 years.

The salient features and other terms of the ESOS are disclosed in Note 26 to the financial statements.

On 2 July 2013, the Company granted 39,120,000 share options under the ESOS at the exercise price of RM0.61. The options expire on 31 July 2017. The options are distributed into three equal tranches vesting on 2 July 2013, 1 July 2014 and 1 July 2015. The vesting condition is that the offeree must be an employee or director of the Company or its subsidiaries on the respective vesting and exercise dates.

The Company has been granted exemption by the Companies Commission of Malaysia from having to disclose the names of option holders, other than directors, who have been granted options to subscribe for less than 600,000 ordinary shares of RM0.25 each. The names of options holders granted options to subscribe for 600,000 or more ordinary shares of RM0.25 each during the financial year are as follows:

# Independent Auditors' Report

to the members of JCY International Berhad  
(Incorporated in Malaysia)

## REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of JCY International Berhad, which comprise the statements of financial position as at 30 September 2015 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 40 to 92.

### *Directors' responsibility for the financial statements*

The directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 1965 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of the Group and the Company as at 30 September 2015 and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 1965 in Malaysia.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 14 to the financial statements, being financial statements that have been included in the consolidated financial statements.
- (c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.

The holding company of the Company is YKY Investments Ltd, which is incorporated in Bahamas.

The principal activities of the Company consist of investment holding and design and development of hard disk drive (HDD) components. The principal activities of the subsidiaries are described in Note 14. There have been no significant changes in the nature of the principal activities during the financial year.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

The financial statements have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements which have also been prepared on a historical cost basis except as disclosed in the accounting policies below, are presented in Ringgit Malaysia (RM) and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

### 2.2 New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except as follows:

On 1 October 2014, the Group and the Company adopted the following new and amended MFRS and IC Interpretations:

Description	Effective for annual periods beginning on or after
Amendments to MFRS 132: Offsetting Financial Assets and Financial Liabilities	
Amendments to MFRS 10, MFRS 12 and MFRS 127: Investment Entities	
Amendments to MFRS 136: Recoverable Amount Disclosures for Non-Financial Assets	
Amendments to MFRS 139: Novation of Derivatives and Continuation of Hedge Accounting	
IC Interpretation 21 Levies	
Amendments to MFRS 119: Defined Benefit Plans: Employee Contributions	
Annual Improvements to MFRSs 2010–2012 Cycle	
Annual Improvements to MFRSs 2011–2013 Cycle	

The adoption of the above new and amended standards and interpretations did not have any significant effect on the financial performance or position of the Group and the Company.

### 2.3 Standards and interpretations issued but not yet effective

The Group and the Company have not adopted the following standards and interpretations that have been issued but are not yet effective.

Description	Effective for annual periods beginning on or after
Annual Improvements to MFRSs 2012-2014 Cycle	1 January 2016
Amendments to MFRS 11: Accounting for Acquisitions of Interests in Joint operations	1 January 2016
Amendments to MFRS 116 and MFRS 138: Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
Amendments to MFRS 116 and MFRS 141: Agriculture: Bearer Plants	1 January 2016
Amendments to MFRS 127: Equity Method in Separate Financial Statements	1 January 2016
Amendments to MFRS 10, MFRS 12 and MFRS 128: Investment Entities: Applying the Consolidation Exception	1 January 2016
Amendments to MFRS 101: Disclosure Initiative	1 January 2016
MFRS 14 Regulatory Deferral Accounts	1 January 2016
MFRS 15 Revenue from Contracts with Customers	1 January 2018
MFRS 9 Financial Instruments (IFRS 9 issued by IASB in July 2014)	1 January 2018
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred

The directors are of the opinion that the standards and interpretations above will have no material impact on the financial statements in the year of initial adoption other than as discussed below:

#### **MFRS 15 Revenue from Contracts with Customers**

FRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. MFRS 15 will supersede the current revenue recognition guidance including MFRS 118 Revenue, MFRS 111 Construction Contracts and the related interpretations when it becomes effective.

The core principle of MFRS 15 is that an entity should recognise revenue which depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Under MFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2018 with early adoption permitted. The Directors anticipate that the application of MFRS 15 will have a material impact on the amounts reported and disclosures made in the Group's and the Company's financial statements. The Group is currently assessing the impact of MFRS 15 and plans to adopt the new standard on the required effective date.

### 2.3 Standards and interpretations issued but not yet effective *cont'd*

#### **MFRS 9 Financial Instruments**

In November 2014, MASB issued the final version of MFRS 9 Financial Instruments which reflects all phases of the financial instruments project and replaces MFRS 139 Financial Instruments: Recognition and Measurement and all previous versions of MFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. MFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. The adoption of MFRS 9 will have an effect on the classification and measurement of the Group's financial assets, but no impact on the classification and measurement of the Group's financial liabilities.

### 2.4 Current versus non-current classification

Assets and liabilities in the statement of financial position are presented based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current. A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### 2.5 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Group and its subsidiaries as at the reporting date. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- (i) Power over the investee (i.e existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its investment with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.5 Basis of consolidation *cont'd*

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement with the other vote holders of the investee
- (ii) Rights arising from other contractual arrangements
- (iii) The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

### 2.6 Business combinations and goodwill

Business combinations involving entities under common control are accounted for by applying the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts reported in the consolidated financial statements of the controlling holding company. Any difference between the consideration paid and the share capital of the "acquired" entity is reflected within equity as merger reserve. The statement of comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination takes place. Comparatives are presented as if the entities have always been combined since the date the entities had come under common control.

All other business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.6 Business combinations and goodwill *cont'd*

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 139 Financial Instruments: Recognition and Measurement, is measured at fair value with changes in fair value recognised in either profit or loss or as a change to OCI. If the contingent consideration is not within the scope of MFRS 139, it is measured in accordance with the appropriate MFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

### 2.7 Subsidiaries

A subsidiary is an entity over which the Group has all the following:

- (i) Power over the investee (i.e existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its investment with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

### 2.8 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

### 2.8 Fair value measurement *cont'd*

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available, to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Policies and procedures are determined by senior management for both recurring fair value measurement and for non-recurring measurement.

External valuers are involved for valuation of significant assets and significant liabilities. Involvement of external valuers is decided by senior management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The senior management decides, after discussions with the external valuers, which valuation techniques and inputs to use for each case.

For the purpose of fair value disclosures, classes of assets and liabilities are determined based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### 2.9 Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Subsequent to recognition, plant and equipment and furniture and fixtures are measured at cost less accumulated depreciation and accumulated impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.9 Property, plant and equipment *cont'd*

Freehold land has an unlimited useful life and therefore is not depreciated. Assets under construction included in property, plant and equipment are not depreciated as these assets are not yet available for use. Depreciation on other property, plant and equipment is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings	2% - 5%
Fixtures, fittings and office equipment	20%
Motor vehicles	20%
Plant, machinery and equipment	6.7% - 20%
Electrical installation	10% - 20%
Renovation	10% - 20%

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

### 2.10 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units ("CGU")).

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss. Impairment loss on goodwill is not reversed in a subsequent period.

### 2.11 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Raw materials and consumables: purchase costs on a first-in first-out basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a first-in first-out basis.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

### 2.12 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity investment of another entity.

#### (a) *Financial assets*

##### ***Initial recognition and measurement***

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale ("AFS") financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

##### ***Subsequent measurement***

For purposes of subsequent measurement financial assets are classified in four categories:

- Financial assets at fair value through profit or loss
- Loans and receivables
- Held-to-maturity investments
- AFS financial assets
- ***Financial assets at fair value through profit or loss***

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments as defined by MFRS 139. The Group has not designated any financial assets at fair value through profit or loss. Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value presented as finance costs (negative net changes in fair value) or finance income (positive net changes in fair value) in the statement of profit or loss. The Group did not have any financial assets at fair value through profit or loss as at 30 September 2015 and 2014.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.12 Financial instruments *cont'd*

#### (a) *Financial assets cont'd*

##### **Subsequent measurement *cont'd***

##### - **Loans and receivables**

This category is the most relevant to the Group. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss in finance costs for loans and in cost of sales or other operating expenses for receivables.

This category generally applies to trade and other receivables. For more information on receivables, refer to Note 16.

##### - **Held-to-maturity investments**

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the Group has the positive intention and ability to hold them to maturity. After initial measurement, held to maturity investments are measured at amortised cost using the EIR, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss as finance costs. The Group did not have any held-to-maturity investments during the years ended 30 September 2015 and 2014.

##### - **AFS financial assets**

AFS financial assets include equity investments and debt securities. Equity investments classified as AFS are those that are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealised gains or losses recognised in OCI and credited in the AFS reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the AFS reserve to the statement of profit or loss in finance costs. Interest earned whilst holding AFS financial assets is reported as interest income using the EIR method.

The Group evaluates whether the ability and intention to sell its AFS financial assets in the near term is still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if the management has the ability and intention to hold the assets for foreseeable future or until maturity.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.12 Financial instruments *cont'd*

#### (a) **Financial assets** *cont'd*

##### **Subsequent measurement** *cont'd*

##### - **AFS financial assets** *cont'd*

For a financial asset reclassified from the AFS category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the EIR. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the statement of profit or loss.

The Group did not have any AFS financial assets during the financial years ended 30 September 2015 and 2014.

##### **Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

##### **Impairment of financial assets**

The Group assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event'), has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.12 Financial instruments *cont'd*

#### (a) *Financial assets cont'd*

##### ***Financial assets carried at amortised cost***

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income (recorded as finance income in the statement of profit or loss) continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in the statement of profit or loss.

#### (b) *Financial liabilities*

##### ***Initial recognition and measurement***

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and loans and borrowings.

##### ***Subsequent measurement***

The measurement of financial liabilities depends on their classification, as described below:

##### **- *Financial liabilities at fair value through profit or loss***

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by MFRS 139. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

### 2.12 Financial instruments *cont'd*

#### (b) **Financial liabilities** *cont'd*

##### **Subsequent measurement** *cont'd*

##### - **Financial liabilities at fair value through profit or loss** *cont'd*

Gains or losses on liabilities held for trading are recognised in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in MFRS 139 are satisfied. The Group does not have any financial liability at fair value through profit or loss.

##### - **Loans and borrowings**

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to interest-bearing loans and borrowings. For more information, refer to Note 20.

##### - **Financial guarantee contracts**

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognised less cumulative amortisation.

##### **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

#### (c) **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.12 Financial instruments *cont'd*

#### (d) *Derivative financial instruments*

##### *Initial recognition and subsequent measurement*

The Group uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

The purchase contracts that meet the definition of a derivative under MFRS 139 are recognised in the statement of profit or loss as cost of sales.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

### 2.13 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits, and short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

### 2.14 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### 2.15 Leases

#### *As lessee*

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

### 2.16 Land use rights

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over their lease terms, 45 to 60 years.

### 2.17 Income taxes

#### (a) *Current tax*

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.17 Income taxes *cont'd*

#### (b) **Deferred tax**

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### (c) **Goods and Services Tax ("GST")**

Revenues, expenses and assets are recognised net of the amount of GST except:

- Where the amount of GST incurred in a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.18 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### 2.19 Employee benefits

#### (a) *Defined contribution plans*

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. The Malaysian companies in the Group make contributions to the Employee Provident Fund in Malaysia, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

#### (b) *Employee share option plans*

Employees of the Group receive remuneration in the form of share options as consideration for services rendered. The cost of these equity-settled transactions with employees is measured by reference to the fair value of the options at the date on which the options are granted. This cost is recognised in profit or loss, with a corresponding increase in the employee share option reserve over the vesting period. The cumulative expense recognised at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of options that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in cumulative expense recognised at the beginning and end of that period.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market or non-vesting condition, which are treated as vested irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied. The employee share option reserve is transferred to retained earnings upon expiry of the share options. When the options are exercised, the employee share option reserve is transferred to share capital if new shares are issued, or to treasury shares if the options are satisfied by the reissuance of treasury shares.

#### (c) *Defined benefit plan*

The cost of providing benefits under defined benefit plans are determined separately for each plan using the projected unit credit actuarial valuation method. Actuarial gains and losses are recognised as income or expense when the net cumulative unrecognised actuarial gains and losses for each individual plan at the end of the previous reporting year exceeded 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. These gains or losses are recognised over the expected average remaining working lives of the employees participating in the plans.

The past service cost is recognised as an expense on a straight-line basis over the average period until the benefits become vested. If the benefits are already vested immediately following the introduction of, or changes to, a pension plan, past service cost is recognised immediately.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and actuarial gains and losses not recognised, reduced by past service cost not yet recognised and the fair value of plan assets out of which the obligations are to be settled directly.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.20 Foreign currency

#### (a) *Functional and presentation currency*

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

#### (b) *Transactions and balances*

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

#### (c) *Group companies*

On consolidation, the assets and liabilities of foreign operations are translated into Ringgit Malaysia (RM) at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

### 2.21 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable.

#### (i) *Sales of goods*

Revenue is recognised net of sales rebates and upon the transfer of risks and rewards of ownership of the goods to the customer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *cont'd*

### 2.21 Revenue *cont'd*

#### (ii) Interest income

Interest is recognised on a time proportion basis that reflects the effective yield on the asset.

#### (iii) Dividend income

Dividend income is recognised when the right to receive payment is established.

### 2.22 Segment reporting

For management purposes, the Group is organised into operating segments based on their geographical segments which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 33, including the factors used to identify the reportable segments and the measurement basis of segment information.

### 2.23 Treasury shares

When shares of the Company, that have not been cancelled, recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sales consideration and the carrying amount is recognised in equity.

### 2.24 Contingencies

A contingent liability or asset is a possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statements of financial position of the Group.

## 3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

### 3.1 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (a) Depreciation of plant and machinery

The cost of plant and machinery for the manufacture of hard disk drive components is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to range from 5 to 10 years. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

### 3.1 Key sources of estimation uncertainty *cont'd*

#### (b) *Deferred tax*

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profit will be available against which the losses and capital allowances can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits. Further details of the recognised and unrecognised deferred tax assets are disclosed in Note 22.

Deferred tax liability are recognised for accelerated capital allowance of property, plant and equipment.

A subsidiary of the Group has been granted full income tax exemption by the relevant authority on the income arising from manufacturing of hard disk component for the period of ten years commencing 1 April 2006.

Significant judgement is required to determine the amount of deferred tax liability to be recognised based on the likely timing and level of future taxable profits upon reaching the end of the tax exemption period.

The deferred tax balance of RM29,296,000 (2014: RM33,549,000) has reflected the effects of such exemptions.

#### (c) *Impairment of loans and receivables*

The Group assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. The carrying amount of the Group's loans and receivable at the reporting date is disclosed in Note 16.

## 9. INCOME TAX EXPENSE *cont'd*

A subsidiary of the Group has been granted full income tax exemption by the relevant authority on the income arising from manufacture of hard disk drive components for a period of ten (10) years commencing 1 April 2006. The computation of deferred tax as at 30 September 2015 and 2014 has reflected the effects of such exemptions.

Domestic current income tax is calculated at the statutory tax rate of 25% (2014 : 25%) of the estimated assessable profit for the year. The domestic statutory tax rate will be reduced to 24% from the current year's rate of 25%, effective year of assessment 2016.

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. Certain subsidiaries of the Group enjoy tax exemptions from the relevant authorities on their business income for current and future periods. The computation of deferred tax as at 30 September 2015 and 2014 has reflected the effects of such exemptions.

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.

## 10. EARNINGS PER SHARE

Basic earnings per share are calculated by dividing profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share are calculated by dividing profit for the year, net of tax, attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The following tables reflect the profit and share data used in the computation of basic and diluted earnings per share for the years ended 30 September:

	Group	
	2015	2014
Profit attributable to ordinary equity holders of the Company (RM'000)	209,500	109,885

## 16. TRADE AND OTHER RECEIVABLES cont'd

### (a) Trade receivables

The Group's primary exposure to credit risk arises from its trade receivables. The Group's trading terms with its customers are on credit. The credit period is generally for a period of 30 days, extending up to 60 days for major customers. Each customer has a maximum credit limit. Other credit terms are assessed and approved on a case-by-case basis. Trade receivables are unsecured and non-interest bearing.

#### *Ageing analysis of trade receivables*

The ageing analysis of the Group's trade receivables is as follows:

	Group	
	2015	2014
	RM'000	RM'000
Neither past due nor impaired	335,598	257,917
1 to 30 days past due but not impaired	11,573	43,734
31 to 60 days past due but not impaired	75	1,765
61 to 90 days past due but not impaired	252	251
More than 91 past due but not impaired	7,622	914
	19,522	46,664
	<u>355,120</u>	<u>304,581</u>

#### *Receivables that are neither past due nor impaired*

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group. Almost all of the Group's trade receivables arise from customers with more than four years of experience with the Group and losses have occurred infrequently.

None of the Group's trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

#### *Receivables that are past due but not impaired*

The Group has trade receivables amounting to RM19,522,000 (2014: RM46,664,000) that are past due at the reporting date but not impaired.

### (b) Amounts due from subsidiaries

The non-current amounts represent advances to subsidiaries which are unsecured, non-interest bearing and are not expected to be repaid within the next 12 months after the reporting period.

The current amount mainly relate to dividend receivable from a subsidiary.

	USD'000	USD'000	RM'000	RM'000
Forward currency contracts	<u>8,000</u>	-	<u>7,982</u>	-

The Group uses forward currency contracts to manage some of the transaction exposure. These contracts are not designated as cash flow or fair value hedges and are entered into for periods consistent with currency transaction exposure and fair value changes exposure. Such derivatives do not qualify for hedge accounting.

Forward currency contracts are used to hedge the Group's sales and purchases denominated in USD for which firm commitments existed at the reporting date, extending to November 2015 (2014: nil).

During the financial year, the Group recognised a loss of RM7,982,000 (2014: nil) arising from fair value changes of derivative liabilities. The fair value changes are attributable to changes in foreign exchange rates. The method applied in determining the fair values of derivatives are disclosed in Note 30.

### (a) Share capital

The holders of ordinary shares (except treasury shares) are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions and rank equally with regard to the Company's residual assets.

The Company has an Executives' Share Options Scheme under which options to subscribe for the Company's ordinary shares have been granted to employees of the Group.

### (b) Treasury shares

Treasury shares relate to ordinary shares of the Company that are held by the Company. The amount consists of the acquisition costs of treasury shares net of the proceeds received on their subsequent sale or issuance.

The directors of the Company are committed to enhancing the value of the Company for its shareholders and believe that the repurchase plan can be applied in the best interests of the Company and its shareholders. The repurchase transactions were financed by internally generated funds. The shares repurchased are being held as treasury shares.

## 24. OTHER RESERVES

### (a) Employee share options reserve

Employee share options reserve arises from equity-settled share options granted to employees (Note 26). The reserve is made up of the cumulative value of services received from employees recorded over the vesting period commencing from the grant date of equity-settled share options, and is reduced by the expiry or exercise of the share options.

### (b) Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. It is also used to record the exchange differences arising from monetary items which form part of the Group's net investment in foreign operations.

## 25. RETAINED EARNINGS

The entire retained earnings of the Company as at 30 September 2015 and 30 September 2014 may be distributed as dividends under the single tier system.

## 26. EXECUTIVES' SHARE OPTIONS SCHEME

In the prior year, the Company introduced an Executives' Share Options Scheme ("ESOS") to eligible executives of the Company.

### *Description of the ESOS*

The ESOS was approved at the Extraordinary General Meeting of the Company held on 24 March 2011 and implemented on 1 August 2011 with a duration of 3 years. The Options Committee has extended the duration of the ESOS for another 3 years. The options are to be settled only by the issuance and allocation of new ordinary shares of the Company. There are no cash settlement alternatives.

The exercise price of the share options granted under the ESOS is RM0.61 each. All options granted are divided into 3 equal tranches which vest on 2 July 2013, 1 July 2014 and 1 July 2015. The vesting condition is that the offeree must be an employee or director, as the case may be, of the Company or its subsidiary on the respective vesting and exercise dates. The options expire on 31 July 2017.

### *Movement of share options during the financial year*

The following table illustrates the number of, and movements in, share options of the Company during the financial year:

### (b) Compensation to key management personnel

Key management personnel of the Group and of the Company are also executive directors of the Company. Information on compensation to key management personnel is disclosed in Note 7.

## 29. CONTINGENT LIABILITIES

### Group - Unsecured

On 14 December 2009, Tenaga Nasional Berhad ("TNB") served a claim of additional electricity charges amounting to approximately RM8.36 million to JCY HDD Technology Sdn. Bhd. ("JCY HDD"), a subsidiary of the Group. The additional electricity charges were in respect of the electricity charges supposedly undercharged by TNB for the period from September 2007 to November 2009 due to the incorrect meter reading from electricity meters that were allegedly defective or tampered with.

JCY HDD had disputed the claims and held discussions with TNB as to their basis and quantification of the additional electricity charges.

On 15 December 2011, the High Court ruled that TNB's claim is only restricted to 3 months backcharges. Therefore, JCY HDD is only required to pay an amount of approximately RM1.05 million to TNB. However, TNB had filed an appeal to the Court of Appeal against the decision of the High Court. Currently, this matter is consolidated with other appeals dealing with similar issues, a new hearing date is yet to be fixed by Federal Court.

There will be no significant financial impact arising from the above claim made by TNB as a major corporate shareholder of the Company has undertaken that it would make good on the amount claimed by TNB. As such, no provision has been made for these backcharges.

## 30. FAIR VALUE

### **Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximations of fair value**

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximations of fair value:

	<b>Note</b>
Trade and other receivables	16
Trade and other payables	19
Borrowings	20

The carrying amounts of these financial assets and liabilities are reasonable approximations of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.

For the purpose of the above estimates of fair value of financial instruments, 'short term nature' is defined as a period within one year.

### **Derivatives**

Fair values of forward currency contract are calculated by reference to forward rates quoted at the reporting date for contracts with similar maturity dates.

### **Fair value hierarchy**

The Group uses the following hierarchy for determining and disclosing the fair value of assets by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value is unobservable

As at 30 September 2015, the Group held the following liabilities of which fair value are disclosed:

	<b>Total RM RM'000</b>	<b>Level 1 RM RM'000</b>	<b>Level 2 RM RM'000</b>	<b>Level 3 RM RM'000</b>

## 30. FAIR VALUE *cont'd*

***Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are not reasonable approximation of fair value cont'd***

### ***Investment in subsidiaries***

Fair value information has not been disclosed for the Company's investments in equity instruments that are carried at cost because fair value cannot be measured reliably. These equity instruments represent ordinary shares in subsidiaries that are not quoted on any market and does not have any comparable industry peers that are listed. In addition, the variability in the range of reasonable fair value estimates derived from valuation techniques would be significant. The Company does not intend to dispose off these investments in the foreseeable future.

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk.

The Board of Directors reviews and agrees policies and procedures for the management of these risks, which are executed by the management. The audit committee provides independent oversight to the effectiveness of the risk management process.

The following sections provide details regarding the Group's and Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

### **(a) Credit risk**

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables.

Credit risks, or the risk of counterparties defaulting, is managed through the application of credit approvals, credit limits and monitoring procedures. Cash terms and advance payments are required for customers of lower credit standing.

Trade receivables are monitored on an ongoing basis via the Group's management reporting procedures.

As at year end, the Group has a concentration of credit risk as a substantial portion of the trade receivables were due from its principal customers.

### ***Exposure to credit risk***

At the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by:

- The carrying amount of each class of financial assets recognised in the statements of financial position.
- A nominal amount of RM138,567,000 (2014: RM82,469,000) relating to corporate guarantees provided by the Company to banks for credit facilities granted to subsidiaries.

Information regarding credit enhancements for trade and other receivables is disclosed in Note 16(a).

### (a) Credit risk *cont'd*

#### **Credit risk concentration profile**

The Group determines concentrations of credit risk by monitoring the country and industry sector profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the reporting date are as follows:

	Group			
	2015		2014	
	RM'000	% of total	RM'000	% of total
<b>By country:</b>				
Malaysia	105,748	30%	91,508	30%
Singapore	18,048	5%	3,144	1%
Thailand	230,608	65%	208,879	69%
Other countries	716	0%	1,050	0%
	<u>355,120</u>	<u>100%</u>	<u>304,581</u>	<u>100%</u>

At the reporting date, approximately 87% (2014: 75%) of the Group's trade receivables were due from 2 (2014 : 2) major customers.

#### **Financial assets that are neither past due nor impaired**

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 16. Deposits with banks and other financial institutions that are neither past due nor impaired are placed with or entered into with reputable financial institutions or companies with high credit ratings and no history of default.

#### **Financial assets that are either past due or impaired**

Information regarding financial assets that are either past due or impaired is disclosed in Note 16.

### (b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

The Group actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient levels of cash to meet its working capital requirements.

#### **Analysis of financial instruments by remaining contractual maturities**

Other than the Group's long term employee benefits amounting to RM2,695,000 (2014: RM1,692,000), all of the Group's and the Company's liabilities at the reporting date fall due within one year.

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *cont'd*

### (c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's primary interest rate risk relates to interest-bearing debt. The Group has no substantial long term interest-bearing assets as at 30 September 2015 and 2014. The investments in financial assets are mainly short term in nature and have been mostly placed in short term deposits.

The Group manages its interest rate exposure by constantly reviewing its debt portfolio to capitalise on cheaper funding when interest rates are low and relying on internally generated funds when interest rates are high.

#### **Sensitivity analysis for interest rate risk**

At the reporting date, if interest rates had been 50 basis points lower/higher, with all other variables held constant, the Group's profit net of tax would have been RM520,000 (2014: RM309,000) higher/lower, arising mainly as a result of lower/higher interest expense on floating rate loans and borrowings. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

### (d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to transactional currency risk primarily through sales and purchases that are denominated in a currency other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily United States Dollars (USD), Singapore Dollars (SGD), Japanese Yen (JPY) and Thailand Baht (Baht). Foreign exchange exposures in transactional currencies other than functional currencies of the operating entities are closely monitored by the Group and kept to an acceptable level.

Approximately 79% (2014: 78%) of the Group's sales are denominated in foreign currencies whilst 46% (2014: 49%) of costs are denominated in foreign currencies. The Group's trade receivable and trade payable balances at the reporting date have similar exposures.

The Group and the Company also hold cash and cash equivalents denominated in foreign currencies for working capital purposes. At the reporting date, such foreign currency balances (mainly in USD) amount to RM194,390,000 (2014: RM130,274,000) and RM52,000 (2014: RM39,000) for the Group and the Company respectively.

The Group is also exposed to currency translation risk arising from its foreign operations. The Group's investment in these subsidiaries are not hedged as the currency position in these subsidiaries are considered to be long-term in nature.

## 32. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 30 September 2015 and 30 September 2014.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio between 25% and 50%. The Group includes within net debt, borrowings, trade and other payables, less cash and bank balances. Capital includes equity attributable to the owners.

## 33. SEGMENT INFORMATION

The Group's activities are predominantly in the trading, manufacturing and assembling of HDD components. As such, segmental information is only presented by geographical segments. The geographical segments are based on the location of assets and these are:

- (i) Malaysia
- (ii) Thailand
- (iii) Others : These consist of segments which are outside Malaysia but which individually fall below the 10% threshold of a reportable segment.

The directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on terms and conditions that are mutually agreed upon.

4. To re-appoint Messrs. Ernst & Young as Auditors of the Company until the conclusion of the next Annual General Meeting and to authorise the Directors to fix their remuneration. **(Resolution 4)**

### As Special Business

To consider and if thought fit, with or without any modification, to pass the following Ordinary and Special Resolutions:-

5. **ORDINARY RESOLUTION NO. 1**
  - **AUTHORITY TO ISSUE SHARES PURSUANT TO SECTION 132D OF THE COMPANIES ACT, 1965** **(Resolution 5)**

“**THAT** subject to Section 132D of the Companies Act, 1965 and approvals of the relevant governmental/regulatory authorities, the Directors be and are hereby empowered to issue and allot shares in the Company, at any time to such persons and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit, provided that the aggregate number of shares to be issued does not exceed ten per centum (10%) of the issued and paid-up share capital of the Company for the time being and the Directors be and are also empowered to obtain the approval for the listing of and quotation for the additional shares so issued on Bursa Malaysia Securities Berhad.

**AND THAT** such authority shall commence immediately upon the passing of this Resolution and continue to be in force until conclusion of the next Annual General Meeting of the Company.”

### ORDINARY RESOLUTION NO. 2

- **PROPOSED RENEWAL OF AUTHORITY FOR SHARE BUY-BACK** **(Resolution 6)**

“**THAT**, subject to the compliance with Section 67A of the Companies Act, 1965 and all other applicable laws, rules and regulations, approval be and is hereby given to the Company, to purchase such amount of ordinary shares of RM0.25 each in the Company as may be determined by the Directors of the Company from time to time through Bursa Malaysia Securities Berhad as the Directors may deem fit and expedient in the interest of the Company provided that the aggregate number of shares to be purchased and held pursuant to this resolution does not exceed 10% of the existing issued and paid-up ordinary share capital of the Company including the shares previously purchased and retained as Treasury Shares (if any) and the maximum funds

to be allocated by the Company for the purpose of purchasing its own shares shall not exceed the total retained profits and share premium account of the Company based on the latest audited financial statements, upon such terms and conditions as set out in the Statement to Shareholders dated 3 February 2016.

**AND THAT** such authority shall commence immediately upon the passing of this Ordinary Resolution and until the conclusion of the next Annual General Meeting (“**AGM**”) of the Company or the expiry of the period within which the next AGM is required by law to be held unless revoked or varied by Ordinary Resolution in the general meeting of the Company but so as not to prejudice the completion of a purchase made before such expiry date, in any event in accordance with the provisions of Bursa Malaysia Securities Berhad (“**Bursa Securities**”) Main Market Listing Requirements and any other relevant authorities.

**AND THAT** authority be and is hereby given to the Directors of the Company to decide in their absolute discretion to retain the ordinary shares in the Company so purchased by the Company as Treasury Shares and/or to cancel them and/or to resell them and/or to distribute them as share dividends in such manner as may be permitted and prescribed by the provisions of the Bursa Securities Main Market Listing Requirements and any other relevant authorities.

**AND THAT** authority be and is hereby given to the Directors of the Company to take all such steps as are necessary to enter into any agreements, arrangements and guarantees with any party or parties to implement, finalise and give full effect to the aforesaid with full powers to assent to any conditions, modifications, revaluations, variations and/or amendments (if any) as may be imposed by the relevant authorities and to do all such acts and things as the Directors may deem fit and expedient in the interests of the Company.”

#### **Explanatory Notes to Special Business: -**

1. *This Agenda item is meant for discussion only, as the provision of Section 169(1) of the Companies Act, 1965 does not require a formal approval for the Audited Financial Statements from the shareholders. Hence, this Agenda item is not put forward for voting.*

2. **Authority to Issue Shares Pursuant to Section 132D of the Companies Act, 1965**

*The Company wishes to seek a new mandate on the authority to issue shares pursuant to Section 132D of the Companies Act, 1965 at the 10th AGM of the Company (hereinafter referred to as the “**General Mandate**”).*

*The Company had been granted a general mandate by its shareholders at the 9th AGM of the Company held on 25 March 2015 (hereinafter referred to as the “**Previous Mandate**”).*

*The Previous Mandate granted by the shareholders had not been utilised and hence no proceed was raised therefrom.*

*The purpose to seek the General Mandate is to enable the Directors of the Company to issue and allot shares at any time to such persons in their absolute discretion without convening a general meeting as it would be both time-consuming and costly to organise a general meeting. This authority unless revoked or varied by the Company in a general meeting, will expire at the next Annual General Meeting.*

*The Company is actively exploring opportunities to broaden its earnings potential. The proceeds raised from the General Mandate will provide flexibility to the Company for any possible fund-raising activities, including but not limited to further placing of shares, for purpose of funding future investment project(s), working capital and/or acquisitions.*

3. **Proposed Renewal of Authority for Share Buy-Back**

*The proposed adoption of Ordinary Resolution No. 2 is to renew the authority granted by the shareholders of the Company at the 9th Annual General Meeting held on 25 March 2015. The proposed renewal will allow your Directors to exercise the power of the Company to purchase not more than 10% of the issued and paid-up share capital of the Company any time within the time period stipulated in Bursa Securities Main Market Listing Requirements.*

4. **Proposed Amendment to Articles of Association of the Company (hereinafter referred to as “the Proposed Amendment”)**

*The Proposed Amendment is to streamline the Company’s Articles of Association to be aligned with the amendment to the Bursa Securities Main Market Listing Requirements.*
